

# RightSlide™ by Meta One

Slide and presentation  
management at it's best

# What is **RightSlide**<sup>TM</sup>

**RightSlide** is the perfect way to create and manage company slides and presentations.

Neatly integrated into PowerPoint, **RightSlide** connects you to your cloud hosted library of slides and presentations, whilst providing a clever set of tools to help ensure that your corporate presentations are always delivered on brand and on time.

**RightSlide** provides you with everything you need to create new presentations that ensure your corporate branding is coherent and consistent. It's designed to increase your productivity and make your business life easier, saving time and money.

With **RightSlide** the emphasis is on helping you keep control of your presentation style and content.

# RightSlide...

gives you a secure cloud hosted library of your company slides, presentations and images

saves time by making standard slides available to all users, wherever they are

is integrated with PowerPoint™, so it's easy to use within a familiar environment

notifies users when slides are updated

includes an intelligent search so that you can easily find the slides you need

will help ensure your presentations stay on brand, including brand checking tools plus styling options customised for your brand

provides tools to help with content and brand compliance

Save time

Keep control

Collaborate

## How does it work...

### **It's easy!**

Your company slides and presentations are stored in the RightSlide online library. Users access this library from within PowerPoint™ and can quickly search for the slides and presentations that they need. It's fast and efficient because all RightSlide content is searchable and can be categorised to suit your organisations needs.

Content can be downloaded into PowerPoint™ from RightSlide, or uploaded to RightSlide if a new slide or presentation is created. It's ideal for different groups of users who want to collaborate and share content.

We also add some useful tools to PowerPoint™ so that users can quickly and easily make new on-brand slides, plus a brand checker to help ensure brand integrity is maintained.

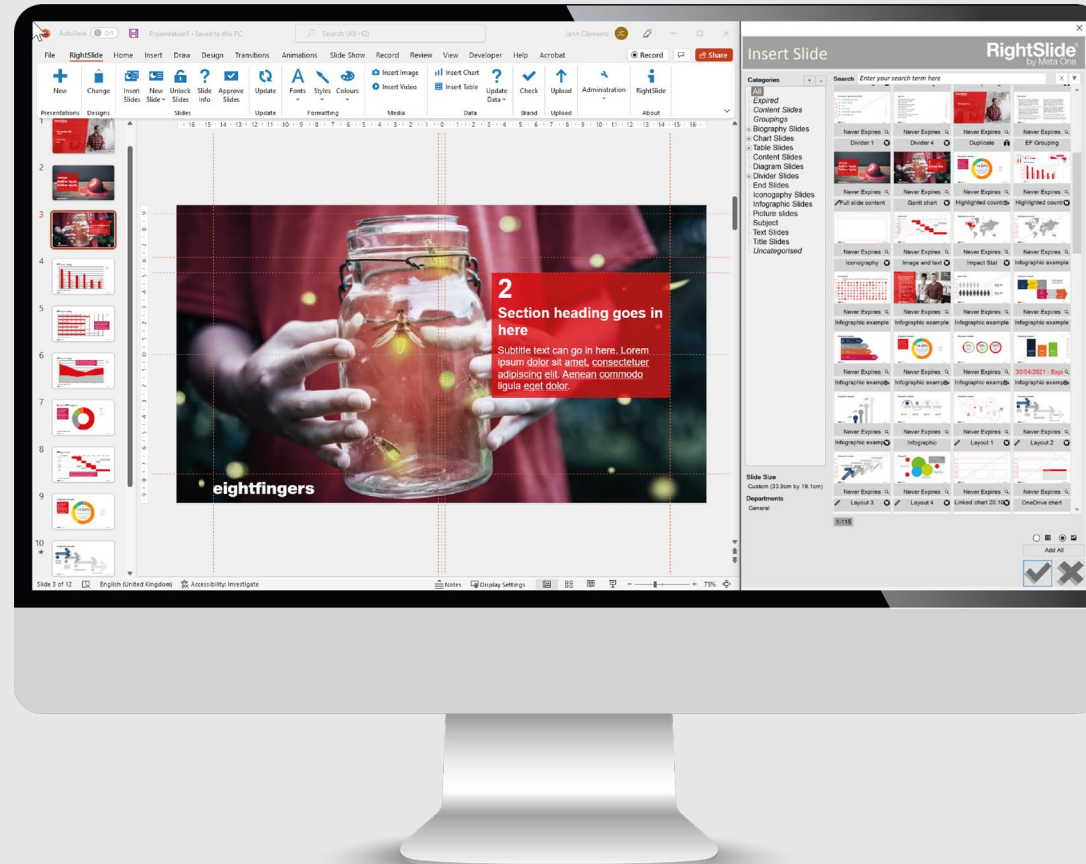

How does it work...

Administrators add or modify slides and presentations in the RightSlide library

Designated users can upload, download or approve content

Users can download and use approved slides and presentations

# How does it work...

The searchable library of slides, presentations, images and videos, makes finding and sharing approved content easy.

Ideal for sales and marketing departments that need to create and manage a large number of presentations from a standard set of slides, RightSlide ensures that your presentations are accurate, consistent and include up-to-date, approved slides.

The functionality of RightSlide enables you to search and lock-down slides in the library, automatically update presentations with new slides, set expiry dates to withdraw slides and presentations and add watermarks to content to indicate the need for compliance approval.

Get automatically updated presentations and slides

Automate the creation of branded charts, tables and graphs

Enhance your presentations and win more business

Speed up the compliance and approval process

Getting  
started...

# Getting started...

RightSlide has 2 parts to it, the online library of your slides, presentations, designs and image library, and the PowerPoint™ plug in that's integrated into PowerPoint™ on licensed users PCs.

## The process

- 1** Contact us for an initial demonstration, and we'll show you how RightSlide will transform the way that your organisation creates and manages it's presentations and content.
- 2** We will explain the pricing options, including any setup costs, licensing and support. Setup costs will vary depending on how much involvement you would like us to have in the preparation of your company slides and presentations.
- 3** We will configure RightSlide for your organisation. This will include setting up your secure online library and configuring RightSlide for your brand. After that we will provide installation support, including initial training for your users.

You will then be ready to start using RightSlide. Our highly experienced presentation specialists will of course be available to provide any ongoing help and support that you may require.

Your RightSlide licence will include first class support provided by our team of presentation and technical consultants.
